Salaam/Shalom is the true story of a Jewish woman's experiences as a teacher in an Islamic school as she embraces a beautiful awakening and learns to focus on likenesses rather than differences. Janet Goldman relies on extensive research and her own personal experiences during her two years of teaching at the Islamic school to offer a compelling glimpse into the many similarities between Islam and Judaism. Through comparing religious and cultural practices, ranging from prayer

traditions to food, Goldman hopes to help bridge religious barriers and encourage a peaceful world. "In this book, the lucid descriptions of both Jewish and Muslim traditions and our respective communities will help bring about understanding and hopefully, more peace through knowledge." Rabbi Alan Katz, Temple Sinai, Rochester, NY "Janet's book is not only a self-reflection but also for many, a raising of the curtain." Yasmin Kabir, Principal, Westfall Academy

Drawing on Japan's experiences with testing, overtesting, and recent reforms to relax educational pressures, Christopher Bjork sheds light on the best path forward for US schools. He asks a variety of questions related to testing and reform, and each draws direct parallels to issues that the schools currently face.

Brian was raised on "the wrong side of the tracks" in inner-city Alabama. Now, at nineteen, with a troubled past and juvenile record, Brian struggles to earn a living and find a life purpose. When he journeys to New York on a chance trip, Brian meets and falls in love with Shannon; a bright eyed, aspiring actress from California. Brian returns to Alabama stirred by Shannon's courage and passion for life. With a new zest and reason for living, Brian is determined to turn himself into a man worthy of her love. Unable to afford college, Brian discovers the Os Guinness Scholarship, which provides free tuition to Pepperdine University for Irish students who desire to train for Ireland's ministry. With some innovative thinking, Brian fakes his Irish citizenry, accepts the scholarship, and moves to Southern California to attend school and pursue Shannon. However, when Brian visits Alabama, all the lies come crashing down and Brian comes face to face with a past he thought was finished. Now, Brian must make a choice: lose Shannon by spinning more lies and choosing vengeance in hopes of putting his past to rest. Or choose honesty and forgiveness and embrace a new life with the only woman he ever loved. Alabama Irish will make us sit back and laugh, then lay the book down and cry. But in the end, we'll be reminded that no matter our pasts, the possibility to find true love again is never lost. (This coming of age love story teaches readers the necessity of honesty and openness in the pursuit of loving, long-lasting relationships.)

This is a story of the 1970s. Of a road trip in a wood-paneled station wagon, with the kids in the way-back, singing along to the Steve Miller Band. Of brothers waking up early on Saturday mornings for five consecutive hours of cartoons. Of growing up in a magical era populated by Bic pens, Mr. Clean and Scrubbing Bubbles, lightsabers and those oh-so-coveted Schwinn Sting-Ray bikes. And of a father -- one of 3M's greatest and last eight-track salesmen -- traveling across the country on the brand-new Boeing 747, providing for his family but wanting nothing more than to get home. In Sting-Ray Afternoons, Steve Rushin paints an utterly nostalgic, psychedelically vibrant portrait of a decade overflowing with technological evolution, cultural revolution, as well as brotherly, sisterly, and parental love. "Funny, elegiac... a remarkably sunny coming-of-age story about growing up in a Midwest world." -- NPR

The book is no mere narrative and it is not simply about the author. It is also an accurate eye-witness account of the way things were in 1930's London, in wartime Kent and Snowdonia, on a crowded troopship, in the Commonwealth Air Training Scheme, and in the Klondike goldfields and construction camps of British Columbia. With echoes of Dickens' Pip, Wordsworth, and Mr. Chips, among other things it takes a glance at climbing, the occult, flying, gold-mining, teaching (in B.C. and in London), recurrent dreams and dissociation. It is a tale of perseverance in the face of repeated disappointment, bereavement and post traumatic stress disorder. And it is an affirmation of the supreme virtue of love. -----

REVIEWS "The true strength of this book is the author's experiences, from his time as a pilot to the four seasons he spent in Klondike goldfields....It is clear that Condon has led a full life...and has risen after every bump and dive. Thus, the phoenix is an appropriate section title and an apt symbol for the writer himself." - Foreword Clarion Reviews "P. A. Condon's literary gem of a memoir...shares sensitive details of his hard-scrabble life with the deft story-telling of Frank McCourt and a healthy dose of Julian Barnes' keen wit....The author's gifted writing and emotional honesty make this book a winner." - Blue Ink Review "A deft, compelling autobiography of an Everyman. Thorough, organized and well-researched, Towards the Light...is powered as much by the storytelling and language as by the subject matter....Wise and nteraining, this book is hard to put down." - Kirkus Review "...a beautifully-written book." - Writer's Digest Judge

This original and fresh approach to the emotions of adolescence focuses on the leisure lives of working-class boys and young men in the inter-war years. Being Boys challenges many stereotypes about their behaviour. It offers new perspectives on familiar and important themes in interwar social and cultural history, ranging from the cinema and mass consumption to boys' clubs, personal advice pages, street cultures, dancing, sexuality, mobility and the body. It draws on many autobiographies and personal accounts and is particularly distinctive in offering an unusual insight into working-class adolescence through the teenage diaries of the author's father, which are interwoven with the book's broader analysis of contemporary leisure developments. Being Boys will be of interest to scholars and students across the humanities and social sciences and is also relevant to those teaching and studying in the fields of child development, education, and youth and community studies.

Sexual abuse scandals, declining attendance, a meltdown in the number of priests and nuns, the closing of many parishes and parochial schools--all have shaken American Catholicism. Yet conservatives have increasingly dominated the church hierarchy. In The Catholic Labyrinth, Peter McDonough tells a tale of multiple struggles that animate various groups--the Survivors Network of those Abused by Priests, Voice of the Faithful, and the Leadership Roundtable chief among them--pushing to modernize the church. One contest pits reformers against those who back age-old standards of sexual behavior and gender roles. Another area of contention, involving efforts to maintain the church's far-flung operations in education, social services, and healthcare, raises constitutional issues about the separation of church and state. Once a sidebar to this debate, the bishops' campaign to control the terms of employment and access to contraceptives in church-sponsored ministries has fueled

conflict further. McDonough draws on behind-the-scenes documentation and personal interviews with leading reformers and "loyalists" to explore how both retrenchment and resistance to clericalism have played out in American Catholicism. Despite growing support for optional celibacy among priests, the ordination of women, and similar changes, and in the midst of numerous departures from the church, immigration and a lingering reaction against the upheavals of the sixties have helped sustain a popular traditionalism among "Catholics in the pews." So have the polemics of Catholic neoconservatives. These demographic and cultural factors--as well as the silent dissent of those who simply ignore rather than oppose the church's more regressive positions--have reinforced a culture of deference that impedes reform. At the same time, selective managerial improvements show promise of advancing incremental change. Timely and incisive, *The Catholic Labyrinth* captures the church at a historical crossroads, as advocates for change struggle to reconcile religious mores with the challenges of modernity.

Educators and policymakers who share the goal of equal opportunity in schools often hold differing notions of what entails a just school in multicultural America. Some emphasize the importance of integration and uniform treatment for all, while others point to the benefits of honoring cultural diversity in ways that make minority students feel at home. In *Just Schools*, noted legal scholars, educators, and social scientists examine schools with widely divergent methods of fostering equality in order to explore the possibilities and limits of equal education today. The contributors to *Just Schools* combine empirical research with rich ethnographic accounts to paint a vivid picture of the quest for justice in

classrooms around the nation. Legal scholar Martha Minow considers the impact of school choice reforms on equal educational opportunities. Psychologist Hazel Rose Markus examines culturally sensitive programs where students exhibit superior performance on standardized tests and feel safer and more interested in school than those in color-blind programs. Anthropologist Heather Lindkvist reports on how Somali Muslims in Lewiston, Maine, invoked the American ideal of inclusiveness in winning dress-code exemptions and accommodations for Islamic rituals in the local public school. Political scientist Austin Sarat looks at a school system in which everyone endorses multiculturalism but holds conflicting views on the extent to which culturally sensitive practices should enter into the academic curriculum. Anthropologist Barnaby Riedel investigates how a private Muslim school in Chicago aspires to universalist ideals, and education scholar James Banks argues that schools have a responsibility to prepare students for citizenship in a multicultural society. Anthropologist John Bowen offers a nuanced interpretation of educational commitments in France and the headscarf controversy in French schools. Anthropologist Richard Shweder concludes

the volume by connecting debates about diversity in schools with a broader conflict between national assimilation and cultural autonomy. As America's schools strive to accommodate new students from around the world, *Just Schools* provides a provocative and insightful look at the different ways we define and promote justice in schools and in society at large.

This deeply personal perspective from a human rights lawyer--whose work on the front lines of the fight against family separations in South Texas intertwines with his own story of immigrating to the United States at thirteen--reframes the United States' history as a nation of immigrants but also a nation against immigrants. In the summer of 2018, Efrén C. Olivares found himself representing hundreds of immigrant families when Zero Tolerance separated thousands of children from their parents at the U.S.-Mexico border. Twenty-five years earlier, he had been separated from his own father for several years when he migrated to the U.S. to work. Their family was eventually reunited in Texas, where Efrén and his brother went to high school and learned a new language and culture. By sharing these gripping family separation stories alongside his own, Olivares gives voice to immigrants who have been punished and silenced for seeking safety and opportunity. Through him we meet Mario and his daughter Oralia, Viviana and her son Sandro, Patricia and her son Alessandro, and many others. We see how

the principles that ostensibly bind the U.S. together fall apart at its borders. *My Boy Will Die of Sorrow* reflects on the immigrant experience then and now, on what separations do to families, and how the act of separation itself adds another layer to the immigrant identity. Our concern for fellow human beings who live at the margins of our society—at the border, literally and figuratively—is shaped by how we view ourselves in relation both to our fellow citizens and to immigrants. He discusses not only law and immigration policy in accessible terms, but also makes the case for how this hostility is nothing new: children were put in cages when coming through Ellis Island, and Japanese Americans were forcibly separated from their families and interned during WWII. By examining his personal story and the stories of the families he represents side by side, Olivares meaningfully engages readers with their assumptions about what nationhood means in America and challenges us to question our own empathy and compassion.

The untold life story of All-of-a-Kind Family author Sydney Taylor, highlighting her dramatic influence on American children's literature This is the first and only biography of Sydney Taylor (1904-1978), author of the award-winning All-of-a-Kind Family series of books, the first juvenile novels published by a mainstream publisher to feature Jewish children characters. The family--based on Taylor's own as a child--includes five sisters, each two years apart, dressed alike by their fastidious immigrant mother so they all look the same: all-of-a-kind. The four other sisters' names were the same in the books as in their real lives; only the real-life Sarah changed hers to the boyish Sydney while she was in high school. Cummins elucidates the deep connections between the progressive Taylor's books and

American Jewish experiences, arguing that Taylor was deeply influential in the development of national Jewish identity.

This biography conveys the vital importance of children's books in the transmission of Jewish culture and the preservation of ethnic heritage.

Winner of the Miguel Mármol Prize, this collection of inter-related stories delves into the life of Andi Rowe—a young woman of Mexican and Irish heritage—to give an intimate account of one family's passage from the immigrant story to the American story, and the cycle of loss, adaptation, and rediscovery that is innate to that experience. Set largely in Los Angeles's San Gabriel Valley, and crossing generations and borders, these stories focus on the quiet moments between explosions, where tension simmers just beneath the surface. From a Border Patrol agent whose own mother crossed the border illegally to a lonely woman seeking companionship with her hired day-laborer, characters seek revelation in the most ordinary of experiences, their actions filled with humor, longing, and honesty. In the tradition of Flannery O'Connor, Toni Margarita Plummer explores themes of grace and redemption as each story spirals toward a surprising but inevitable conclusion. *The Bolero* of Andi Rowe, an impressive work by an exciting new talent, offers a compassionate look at the struggle between meeting cultural expectations and seeking happiness, and the sacrifices and triumphs made along the way.
